Europe, CIS, Asia

TTS is a Swiss-based, neutral, international transport company with the main emphasis on rail freight. Thanks to our well founded market knowledge and extensive experience, we can offer you customer oriented overall solutions.

In close cooperation with our sister companies, you benefit from our specific know-how for the transport of conventional and containerised goods. Within our group we have our own locations as well as long-standing business relationships with companies along the New Silk Road.

Rail transport
(conventional / intermodal)

Providing optimal
equipment

Truck, air freight,
sea freight & short sea

Terminal services as well as
tracking & tracing

Single containers,
container groups / trains

Customs clearance &
document management

Part loads (LCL) & FCL
on the New Silk Road

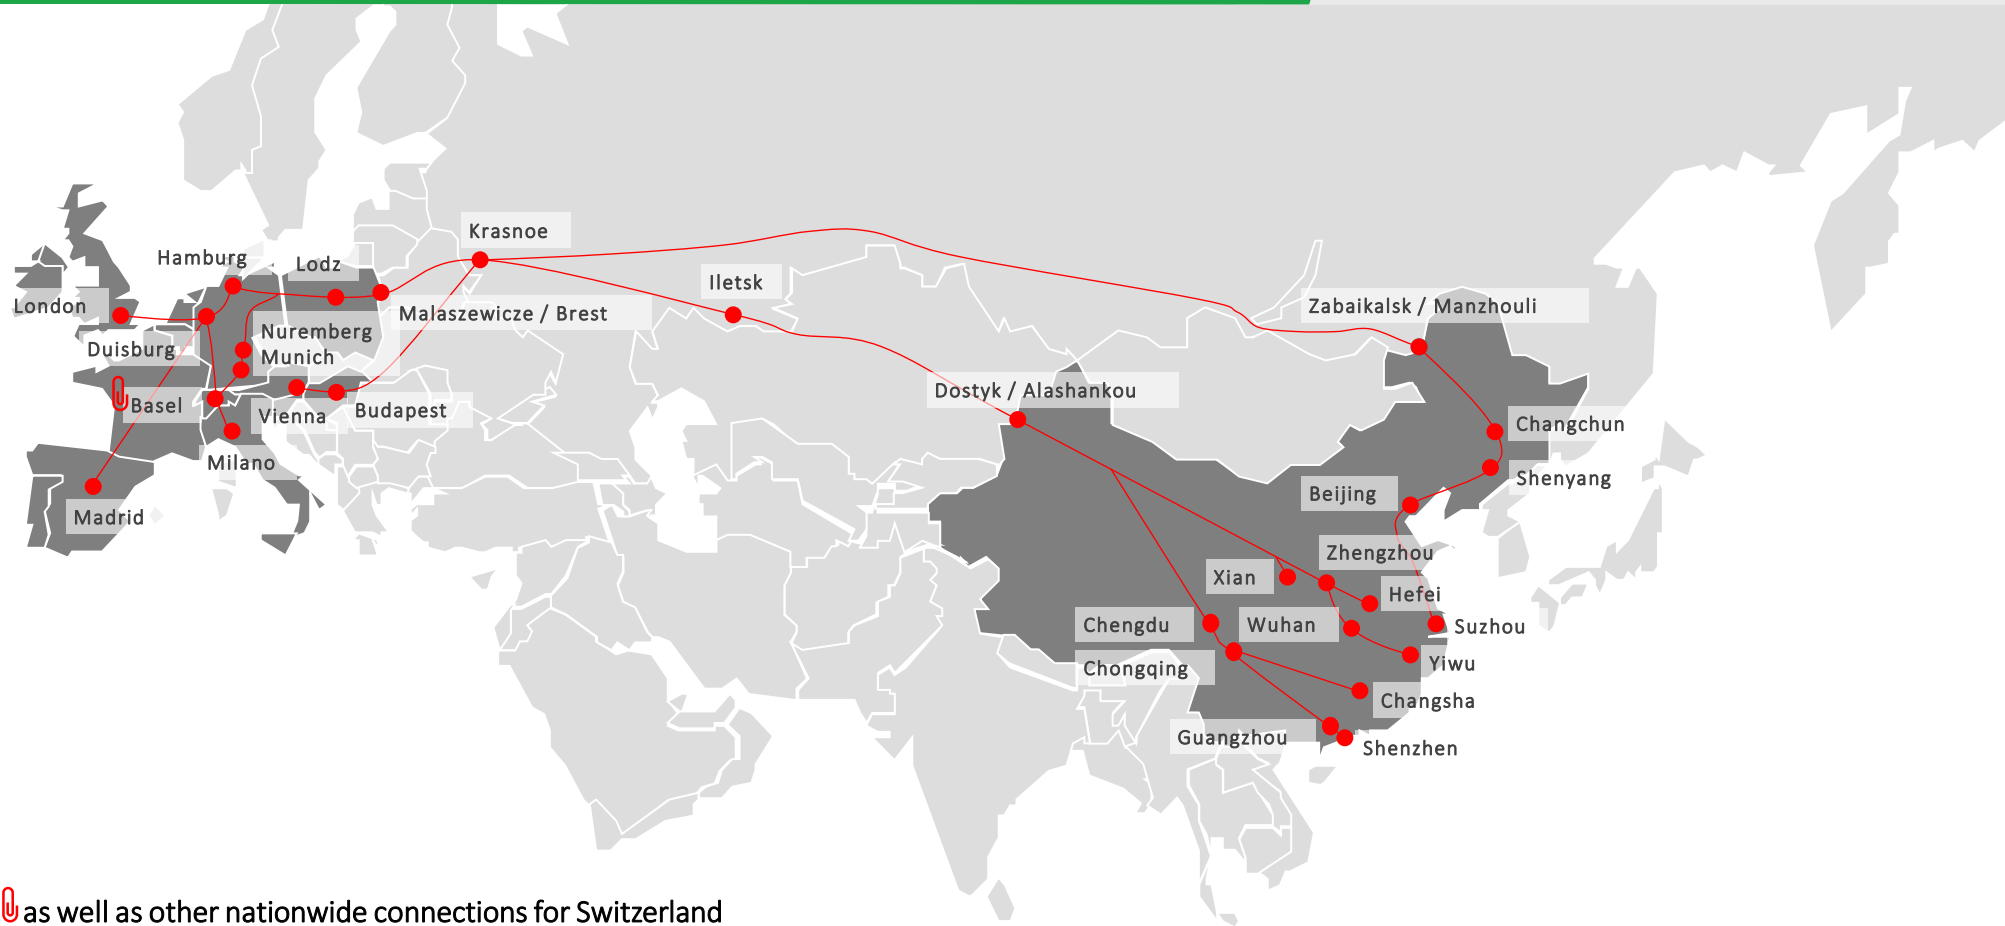

Individual projects with
tailor-made solutions

Operators of Block Trains

Our group runs regular block train connections between the major economic hubs in Europe and China with several departures per week in both directions. With the pre- and on-carriage (door-to-door service) that we also offer, the two continents are linked with each other within a large area.

Booking Agent

Take advantage of the possibility to book single containers up to container groups on all existing block train connections from China to Europe and vice versa.

Optimise your processes
through planning
(tracking & tracing)

Short transit time even
for small shipments

More cost-effective
than air freight

Fresh products as well as
new and seasonal markets

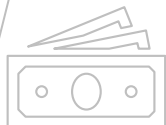

Twice as fast as
sea freight

DraGo Green
environmentally friendly,
good CO₂ balance
