

Creating paths - linking sustainably
Your partner for logistics

TRANSPORT & TERMINAL SERVICES

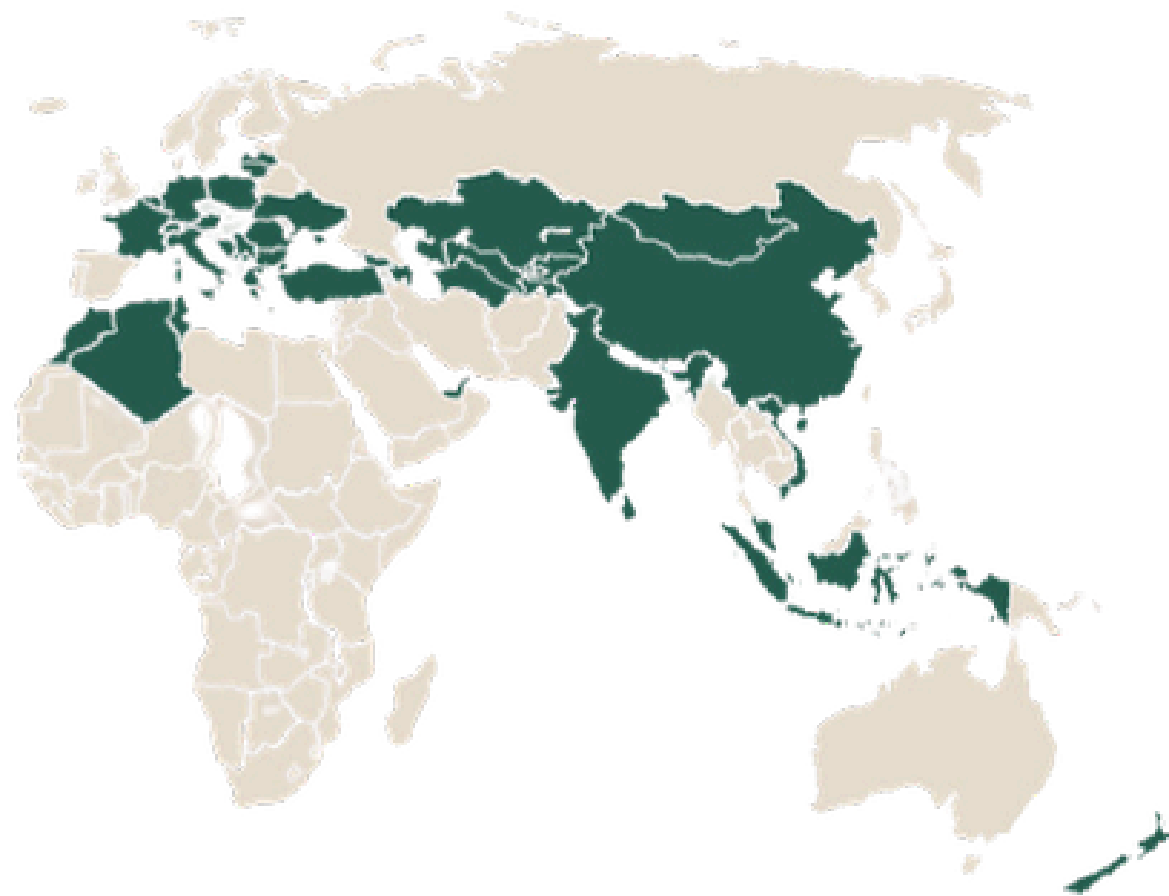

Globally networked - part of the TransInvest Group

TransInvest is a globally active group of independent companies united under the umbrella of a common holding company.

With a clear focus on **Europe, North Africa and Asia**, we concentrate on **transportation and logistics** - our core competence and passion.

Active in over **40 countries**, the Group unites around **100 individual companies** and offers over **3,300 employees** attractive prospects and development opportunities.

We are at your side - our core competencies

Sustainably efficient transport solutions

TTS is an **independent, international transport company** based in Switzerland. With **in-depth market knowledge** and many years of experience, we offer tailor-made, complete solutions. Through close cooperation with our sister companies, you benefit from **extensive know-how, our own locations as well as strong partnerships** along the New Silk Road.

Our **commitment to the environment** is reflected in our goal of avoiding unnecessary transport routes and aiming for **efficient logistics processes**. The targeted use of different modes of transport minimizes energy consumption along the entire supply chain. We combine **economic efficiency with ecological responsibility** - to offer convincing, sustainable solutions.

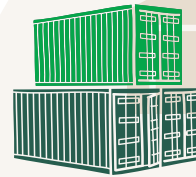

Environment
certificate for
customers

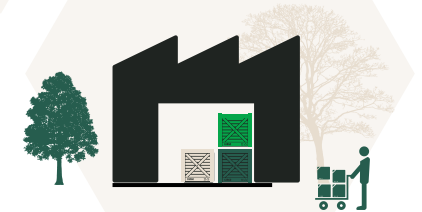

Steering on the right track

The world fits in a container

Land a direct hit

Insure your goods

China Express Shuttletrain

Clever combinations

With us, your goods are in good hands

Complex becomes simple - your customs clearance with us

Sea freight & short sea

More cost-efficient
than air freight

Optimized processes
through plannability

Twice as fast as
sea freight

Operator of block trains

Our group of companies operates **regular block train connections** between the most important economic hubs in **Europe and China** - with **several departures per week** in both directions. Thanks to efficient pre- and on-carriage solutions, we seamlessly connect both continents.

Whether **part loads, individual containers or container groups** - take advantage of our **flexible block train connections** between China and Europe, individually tailored to your needs.

Our route network +

We are sure to serve your destination.
 Contact us to get your freight to its destination - efficiently and safely.

Full range transport solutions across Eurasia & the CIS

Everything from a single source

Trade between Europe and Asia is our core competence. With **over 25 years of experience**, we offer customized logistics services. Our **extensive network in Europe, the CIS states and Asia** guarantees targeted and reliable deliveries. You can rely on our expertise for **smooth and cost-efficient processes** - across borders and continents.
